THURSDAY, JUNE 6, 1901.

M'KINLEY IN HISTORY.

It is refreshing to feel and know that in the year of grace, 1901, an American is no more in a position where he had to admit that he was under an empire system or where the Chief Executive of the Nation is vested under the form of law with imperial powers.

William of Germany a few years ago, to the chagrin of his subjects, said in an address made: "I am the State." The meaning of which had a significance connected with it to the German and mind that was anything but pleasant as it recalled a struggle which continued for centuries to secure freedom from political conditions that existed when the ruler could truthfully say: "I am the State," as his will was paramount to the will of the people.

During the reign of Louis XIV in France the phrase, "I am the State," had a meaning that was absolute in terms and in fact. Richelieu had opened the way to the most absolute form of government under that reign that had been in France since the time of Charlemagne, which continued to the reign of Louis XIV, when the French revolution came to close absolute rule to the house of Bourbon.

While it is true that William of Germany said, "I am the State," he has been too wise to apply the principle contained in the assertion by attempting to assume absolute power in matters of government.

The imperial will and power of President McKinley in the island territory has been closed. It is to be hoped to remain closed, not only while he is President of the Republic, but to remain closed to his successors for all time.

When an American citizen in the Philippines before the decision of the Supreme Court, could not say, "I am a free man," he was in a position which neither Saxon nor Celt has been in for some time preceding the Spanish war, but it is otherwise in the island and territories since it is ascertained that the constitution is in these insular countries with like force as it is admitted to have been in the thirteen original States.

It is again before the world that an American citizen is a freeman whenever he is under the flag, where it floats as an emblem of authority, which is a result of constitutional action being present wherever the sovereignty of the people exists, which is on every foot of the earth's surface subject to their jurisdiction.

There is not any known cause that the writer is aware of to cause President McKinley for any arbitrary use of the power he was wrongfully clothed with, which should be entered to his personal credit, but his mild imperialism did not relieve the dangerous precedent of its effects upon Republican institutions. The exercise of a pretended right to clothe the Chief Executive with imperial powers was a menace against constitutional government, which the people of the great Republic cannot afford to play with in next supposed emergencies under new conditions.

Statesmen should be able to provide required means to meet the demands of government under constitutional forms which would obviate any emergency necessity to employ extraordinary methods in government, more particularly methods having the absolute form.

President McKinley, like William of Germany, has not said in words in connection with the Philippines, "I am the State." While by his acts in the Philippines he has said, "I am the State," he has refrained from insisting the American people through the use of imperial language. While he was willing to be imperial in form and in fact, he has covered the fact, but not the form, by the use of temperate words and a mild manner. He played Caesar to perfection by putting away the crown when it was offered by a subject people who were not aware, as it appeared by their acts, that their country had in a measure ceased to be a Republic, while he was engaged in tempering the winds of imperialism to its shorn lamb.

William McKinley in history written in the future will stand in a very uncertain position when his administration will stand naked before posterity to be gauged exclusively by its merits, when the glimmer of money will not be present to cover or shield usurpation connected with assumption of imperial powers.

THESE SELF-MADE MEN.

An interesting catalogue of American millionaires has been published by the New York Herald. There appear to be 3,285 of them. Of these 87 per cent have made their own fortunes, the remaining 13 per cent having got their fortunes ready-made from their

SYRUP OF FIGS

NEVER IMITATED QUALITY.

An Excellent Combination.

The pleasant method and beneficial effects of the well known remedy, SYRUP OF FIGS, manufactured by the CALIFORNIA FIG SYRUP CO., illustrate the value of obtaining the liquid laxative principles of plants known to be medicinal, laxative and presenting them in the form most refreshing to the taste and acceptable to the system. It is the one perfect strengthening laxative, cleansing the system effectually, dispelling colds, headaches and fevers gently yet promptly and enabling one to overcome habitual constipation permanently. Its perfect freedom from every objectionable quality and substance, and its acting on the kidneys, liver and bowels, without weakening or irritating them, make it the ideal laxative.

In the process of manufacturing figs are used, as they are pleasant to the taste, but the medicinal qualities of the remedy are obtained from senna and other aromatic plants, by a method known to the CALIFORNIA FIG SYRUP CO. only. In order to get its beneficial effects and to avoid imitations, please remember the full name of the Company printed on the front of every package.

rather and grandfathers. Nineteen per cent of them got rich in the manufacturing business, while other industries and pursuits were represented thus: Merchandise, 16 per cent; real estate, 13 per cent; railways and steamships, 12 per cent; banking, 10 per cent; mining, 8 per cent; farms and cattle, 6 per cent; other sources, 5 per cent.

It is rather singular fact that not one of these millionaires made his money by the practice of a profession, or trade.

AUGUST FLOWER.

"It is a surprising fact," says Prof. Toulton, "that in my travels in all parts of the world, for the last ten years, I have met more people having used Green's August Flower than any other remedy, for dyspepsia, deranged liver and stomach, and for constipation. I find for tourists and salesmen, or for persons filling office positions, where headaches and general bad feelings from irregular habits exist, that Green's August Flower is a grand remedy. It does not injure the system by frequent use, and is excellent for sour stomachs and indigestion." Sample bottles free at S. J. Hodgkinson.

BIG STAG PARTY.

The Reno Wheelmen Will Give a Social and Buy Racing Suits.

The entertainment committee of the Reno Wheelmen's Club held a meeting last evening and decided to give a stag entertainment and smoker in their club room, Friday evening, June 14th, to raise money with which to purchase new racing suits for the relay riders.

The program will consist of vocal and instrumental music and three or four "warm" stags, tumbling and athletic work by members of the club. An admission of fifty cents will be charged, and each member will be allowed to invite two gentlemen friends. Smoking material will be furnished, and every one given an enjoyable evening.

Arrangements have been made for the Riverside Concert Band to make their first appearance on this occasion, and they will disperse sweet music on the Wheelmen porch prior to the entertainment.

The racing suits of last year are worn out and the committee and racing enthusiasts wish to present the champions with new ones, and start them out in style for the coming season.

The Wheelmen Sousa band will make their first appearance, and will be a drawing card for the entertainment. Help the cause along by being present. Ladies, on this occasion, will make their presence conspicuous by absence.

ORGANIZATION EFFECTED.

After the rehearsal of the band last evening, an organization was effected by the election of the following officers: Lester Merrill, President and Director; Alfred Cunningham, Secretary; Will Ferguson, Treasurer; Paul Schwartz, Business Manager; Will Murray, Sergeant-at-Arms.

The band will be known as the Riverside Concert Band, and is organized for the good of the town; to give popular concerts during the summer months, etc.

Henry Riter has given the boys the use of Riter Hall for rehearsal purposes, gratis, and the musicians will shortly give a picnic in order to get a little money with which to buy music.

Director Merrill informs the Journal that he will not be able to give an open-air concert Sunday evening next, as at first thought, but will probably appear before the public the latter part of next week.

There is good material in the band as selected, and there is no reason why it should not have the band of the State, and undoubtedly will if the boys knuckle down to business.

SUSANVILLE WILL HURRAH.

Clyde Bliss returned yesterday from Susanville. He was the sole representative of Reno at the celebration in the northern town over the dedication of the Hotel Emerson.

The Susanville brass band and several hundred citizens met him a mile from town and escorted him into the village with the greatest of escort. Susanville feels proud over the fashion in which it was honored by the citizens of the metropolis of Nevada.

There were big doings in the capital of Lassen Monday night. A prodigious dance was enjoyed and the night proved all too brief for the program. Susanville is rebuilding better and bigger than before the fire. There is a spirit of prosperity and progression there that impresses visitors.

PLANS WILL ARRIVE.

Hon. P. L. Flanagan received word yesterday morning that the plans for the proposed cold storage and power house would arrive here tomorrow morning from San Francisco, where they were drawn up by Spreckles architect. Immediately upon the arrival of the plans work will be started on the building and pushed with vigor. At least twelve bricklayers will be put to work at the beginning. The company has purchased from Geo. Booth 600,000 bricks, all that he had, so that there is not a brick to be had in the town.

MONEY GOES BEGGING.

Dr. Plummer still holds the certificate of deposit for about one hundred dollars subscribed toward the good roads fund. Several weeks ago the attention of the public was directed to this matter, but nobody said anything, leaving the matter to his neighbor.

The Journal suggests that the money be applied toward the purchase of another sprinkling cart. If nobody objects, and they have this opportunity, the money will probably be thus disposed of.

OFFICERS ELECTED.

Court Mt. Rose elected the following officers to serve during the ensuing term:

A. W. Fox, P. C. R.; H. Askins, S. R.; H. Brown, S. C. R.; H. Marsh, S. W.; A. Hamp, J. W.; C. Corrie, Treasurer; John Culling, Financial Secretary; A. W. Fogg, Recording Secretary; H. Merritt, S. B.; Manuel Simas, J. B.; G. Guntz, Auditor.

HIS HEART FAILED.

Ben Richardson, a Well-Known Prospector, Expires Suddenly.

At noon yesterday Ben Richardson appeared in normal health. Fifteen minutes later he was dead. He spent the morning on the streets and seemed in excellent spirits due to word having been received that work was being begun upon mines on Granite Hill that he recently bonded.

A few minutes before 12 he left for the home of his sister Mrs. D. Dickey, on West street near Third. He sat down to dinner, when he was suddenly taken with an attack of nausea. He hurriedly walked to his room and fell dead at the door. Heart disease was the cause of his death. By a singular coincidence, John Beis, an old time friend of his, died in a similar manner exactly a year ago. He was aged 42 years. He was born in Vermont, but resided in Reno nearly all his life. He spent most of his time prospecting and had lived a few months longer, would doubtless have had his time and money well repaid. Mrs. Dickey is his only relative residing here.

Sullivan & Co. are now working four men at their mine near Bryan City.

Judge Caciari has begun work on his recently purchased mining property adjoining the Bell diggings. A deep shaft will be sunk.

Judge Talbot was engaged yesterday hearing testimony in the case of Union Ditch Company vs. B. F. Leete. Every able bodied train carries a number of discharged soldiers.

EMPTY ARE THE HALLS.

Few lights gleam from the windows of the college on the hill. The boarding hall has closed and the students have all departed. A few professors linger, but their ranks are being thinned daily.

Professors Blessing and Darling left last night for Kentucky. Dr. and Mrs. Cushman also departed for Cambridge, Massachusetts. This morning Professors Delaguna and Bardenwerper leave this morning for the city. They will for the city. They will carry a week at the Agassiz school at Alta.

HEADQUARTERS FOR DRUMMERS.

It is a matter worthy of comment that Reno is becoming headquarters for commercial men. Reno is the largest city for a distance of a thousand miles along the line of the Central Pacific. It is a distributing point for a large area and these facts are causing a number of wholesale houses to locate their sellers here from which point they make excursions into the "circumjacent."

PICNIC FRIDAY.

The teachers and pupils of the Anderson and Brown schools will give a picnic at the Lake ranch, Friday, June 7th. Dancing at Sierra Club Hall in the afternoon. All friends are cordially invited. No questionable characters will be admitted. Come and have a good time.

CAPTAIN NEALL ARRESTED.

Captain John M. Neall, formerly an instructor at the University, was arrested at Butte, Mont., Sunday by a Deputy United States Marshall on instructions from San Francisco, charging him with forgery of vouchers in the army, three years ago.

WILL STAY WITH HUMBOLDT.

C. D. Van Duser arrived from Carson last night in a private conveyance, and left for that place on this morning's local. Mr. Van Duser denies the assertion that he intends to locate in Reno. While he recognizes the inevitable destiny of that town as the coming metropolis of Nevada, he intends to stay with Humboldt, his present home. Virginia Report.

RENO WILL BE ON DECK.

This City Will Send a Huge Delegation to the Carson Carnival.

Reno has decided to come up here during the first week of July and take possession of Carson City about three thousand strong, says the Appeal. It will be a peaceful invasion and they will come as friends and guests ready to make merry and join in the general hilarity. Already the people down there are weaving the Carnival colors and you can hardly see a school child on the streets who has not the red, yellow and sagebrush green on Senator Hanigan is planning to bring up something more than mere people. He is organizing a committee to make a stunning display. The Reno people are pleased that the Grand Marshal is to come from Washoe and now propose to reach out and grab the Carson Carnival. An syndicate has been organized down there to carry off the honors for the Queen and bring her in on a decorated train holding short receptions all along the line at each stopping place. If money will win the Reno people say that they have it in vada and chunks and they are not afraid to spend it. Washoe county says that it will also have a mining lot in the line which will be a parallel. It will represent Washoe's new mining industry in great shape and show that she is coming to the fore as a bullion producer.

A. E. Hepburn, a mine promoter of London, passed through town Tuesday on his way to Crescent Mills, where he has mining property that will shortly be taken hold of by an English syndicate.

SIXTY DAYS FOR A GUN FIGHTER.

Charles Williams was yesterday taken to the city's sanitarium on the South Side.

Mr. Williams made himself quite numerous in a downtown saloon the other evening by flourishing a revolver, and finally discharged the weapon. He was tried on a misdemeanor charge, and his apparent loss of memory was most pronounced, as he could not remember anything about it.

Judge Linn thought absolute rest and quiet were necessary, so he recommended that Mr. Williams retire from active participation in the affairs of State and nation for a period of sixty days.

OLD CITIZEN PASSES AWAY.

Word was received in Reno yesterday of the death of H. B. Sheldon, one of Reno's oldest and most respected citizens. He passed away at Pacific Grove, whither he had gone in search of health.

The deceased was aged about eighty years and was a native of New England. In the early days he settled in Lassen county and later removed to Reno.

He was a member of Reno Lodge, No. 13, F. & A. M., Reno Chapter, No. 7, R. A. M., and Lassen Commandery, K. T.

ABOUT MINE AND MINER

Notes Gathered From Exchanges.

About This Indus-try.

MINING. The Yerington Monitor says rich copper ore has been found on the Walker Indian Reservation, and that efforts are being made to have the reserve thrown open to prospectors.

A fresh attempt is to be made to work the ores of Meadow Lake, near Truckee.

A two-foot body of galena ore has been struck in the Rocco-Hornetake mine at Hamilton, White Pine county.

It is the prevailing opinion about the city that Richard Hackling and Ole Olsen of the Boston & Montana have severed his relationship with that company and in the future he will devote his time and ability to working one of his own properties in the State of Nevada.—Butte Times.

C. H. Kayser, a mining engineer, has been examining mining properties in the Indian Reservation for the past few weeks. Mr. Kayser represents a large eastern company.

A rich strike is reported from Chandelier district, Lincoln county. A shipment of the ore has been made, showing 31 per cent copper and enough gold and silver to pay transportation and reduction charges.

Next Monday morning, G. A. Thorpe will put Richard Hackling and Ole Olsen to work on his antimony mines, seven miles south of Austin, extracting ore for shipment. Supplies for the mine and men have to be packed up the mountain by pack animals, as the snow drifts on the road, near the top of the summit for 700 feet, are too deep to get through, and will be so for several weeks yet to come.—Austin Herald.

It is reliably reported that mining will be resumed at White Horse. As the ore has been worked in a large scale the White Horse mines will come to the front.—Dispatch.

Several rich strikes are reported to have been recently discovered in Sacramento mining district, Lincoln county.

The mining outlook in this State is never brighter than at the present time, and if Nevada don't come to the front now, she never will.

DESTRUCTIVE FIELD MICE. Reports from Lovelock are to the effect that field mice are playing havoc with alfalfa fields on Big Meadows, remarks the Silver State. It is said that on Peter Anker's ranch the rodents have destroyed the first crop of alfalfa entirely, and that his loss will amount to \$5000. The destruction of crops by field mice and cut worms is an evil which the Lovelock ranchers will hereafter be forced to contend with and they will doubtless have great difficulty in finding an effective means of exterminating the pests.

PROOF OF THE PUDDING. There has been plenty of talk concerning the mines near Reno as to their productiveness. The mines are now returning a billion tax to the State, which proves that they are but producers. Whenever a mine commences turning in taxes to the State from the produce of the ore it is proof positive that the mine is a producer, and that the mine is a permanent factor in the business world.—Enterprise.

THE AMERICAN RESTAURANT. A. T. Rice of the American Restaurant is continually securing an increase of business, owing to the excellence of the food he sets and the artistic manner in which it is cooked and served. He is prepared to furnish the best 15 cent lunch between the hours of 11:15 and 2:15, and is situated in the city. Just think of it, a first-class meal at noon for 15 cents. Give him a trial, you will call again.

MINE LOOKING UP. The Gulline & Lorin mine near Bryan City is showing up better every day. Chas. Busan sunk a shaft fifty odd feet for them on a decomposed quartz lead that carries gold values and some silver. The lead will be crossed by a drift from the bottom of the shaft.
